

HANDSUM DESIGNS

12 months on and here's what's happened.

12 months on and we've decided to give all of our customers, friends & family an update as to how we have evolved during the year.

In June 2010 we had our launch which, thanks to [Grant Willavise](#), was a great success.

After a brief T-Shirt selling spree, mainly to friends and family, we started promoting the website using [Facebook](#), [Twitter](#) and our [Blog](#) which are being

updated regularly with information and offers. This led to our first sales to private customers.

In the autumn months we introduced [sweatshirts](#) and [hoodies](#) to the website which have been a great success.

Come the New Year we were contacted by some designers and illustrators. They showed some interest in collaborating with us and some new

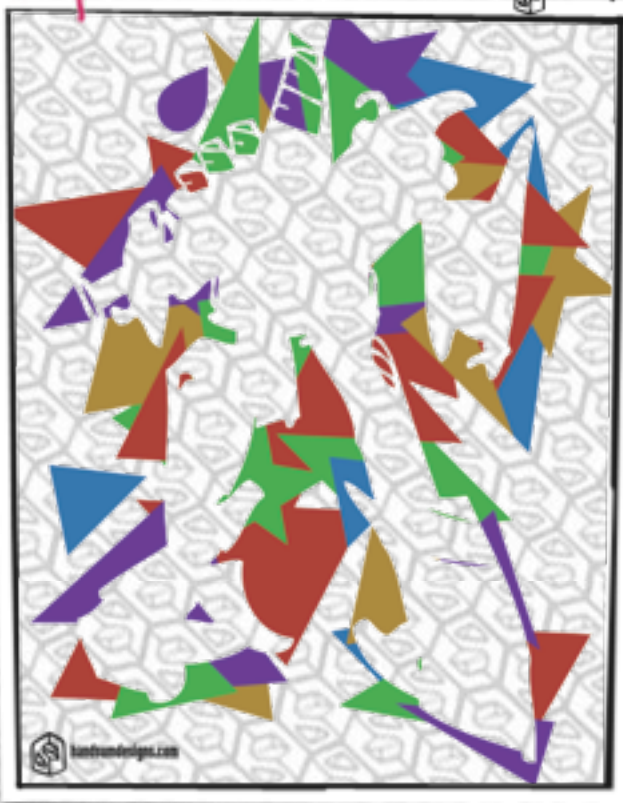

designs and styles were introduced to the Handsum Designs [catalogue](#).

Recently we launched a range of designs on [girls](#) clothing.

Our target for this coming year is to help get more up and coming [musicians](#) out there.
